Solar Private Parking Locks

telcoma automations
RIELLO ELETTRONICA

Made in Italy

Features

Automatic parking saver with inbuilt control unit. Ideal to preserve your own parking space against un authorized use. Available with in-built solar panel or 230V battery.

The stainless steel structure makes it virtually indestructible. In case the curved arm is hit by a vehicle, the spring system inside prevents damage and brings the arm back into position.

Safe and precise thanks to the encoder control, it is also simple and easy to install. After fixing it to the ground it does not require any setting. The control unit is pre-programmed.

Practical, it can be installed anywhere. The in-built photovoltaic panel makes it suitable for use in any condition.
