# STI Exit Stopper®

STI-6400

#### PRODUCT OVERVIEW

The Exit Stopper is a unique and highly effective way to alert you to any unauthorised exits or entries through emergency exit doors. It can also serve as an inexpensive security device and help prevent theft. It is available in red or green and can be mounted or installed on almost any type of door, including remote placement of the sounder. The highly visible 'STOP' sign discourages unauthorised use of emergency doors.

#### HOW IT WORKS

If the protected door is opened, the electronic Exit Stopper emits an ear piercing alarm. When the door is closed, a number of reset options are available including an automatic function. A variety of alarm durations and setup features are available (see User Programmable Features chart overleaf). A key operated override facility will silence the alarm and allow authorised exits. The Exit Stopper is fitted with a 9V PP3 alkaline battery.

#### KFY FFATURES

#### **General Information**

- Prevent unauthorised exits and entries through emergency exit doors
- Three year guarantee against breakage of polycarbonate in normal use (one year on electromechanical and electronic components).

#### Design

✓ Push bar to open

· Compact design (136mm diameter and 50mm deep).

#### Construction

 Virtually indestructible polycarbonate cover is UV stabilised.

#### Installation

- Highly versatile; can be mounted or installed on any type of door, including remote placement of sounder.
- · Can be installed and protecting doors in minutes.

#### **Electronics**

- · Powered by a 9V PP3 alkaline battery (included).
- Incorporates a 12/24 VDC connection.
- $\cdot$  40 milliamp 9 VDC trigger output.

#### **Options**

- · Variety of user programmable features.
- A key operated override facility will silence the alarm and allow authorised exits.

## Remote Wireless Monitoring of Exit Doors

You can now be alerted to any vandalism or authorised use of a fire exit door in the event of an emergency. Upon activation, the Exit Stopper (when fitted with an optional transmitter and sounder) will emit a localised alarm as well as triggering the 4-Channel (STI 34104) or 8-Channel Receiver (STI 34108), providing a visual and audible indication, remotely.
